TESTIMONY

TALITA RUAS MADERI

FOTO

RECUADRO:

Home University: UNIVERSIDADE ESTADUAL DO SUDOESTE DA BAHA

Current career: PROFESSOR AT UNIVERSIDADE ESTADUAL DO SUDOESTE DA BAHA

E-mail: taliruas@uesb.edu.br

My exchange at UNIFÉ was a unique experience. It was really nice to learn Spanish language through interesting courses such as Peru's gastronomy and history. I felt like a home student thanks to the friendship of people who welcomed me, people such as students, professors and other workers. In the other hand, having this experience has influenced in some job selections and interviews I attended. It is almost a year since I left Brazil and went to Lima, but this experience is still present in my daily life. In my next travel, I will surely go to Lima to visit these very special people I met there and at UNIFÉ as well as learn more about this really charming country ...

TESTIMONY

ANE CAROLINE PEREIRA CRUZ

FOTO

RECUADRO:

Nationality: Brazilian

City: Dourados – State of Mato Grosso do Sul

University: Universidade Federal da Grande Dourados

E-mail: anecarolinecruz@gmail.com

Ane Pereira Cruz is a Brazilian student who is undertaking studies in the Early Childhood Education program during the semester 2013 – I. We had a conversation with her to know her experience in our institution.

Why were you interested in coming to UNIFÉ?

Because this university has an excellent program of general Education and is recognized for being one of the most trained universities in this area.

What are your first impressions about UNIFÉ?

I am really surprised because I did not expect such a high academic level. Professors are very well qualified and they have a valuable experience. The philosophy of this university is highly rich in the humanistic field and that is really important for my training. My home university also provides the program of Pedagogy. Sometimes, however, time is limited for deepening various levels (early, primary, special and adult education) in four years. Here, I can study, for example, learning in children in greater detail.

What do you think about our city?

The traffic in Lima surprised me very much, but it was amazing to see how well – preserved is history in terms of architecture, museums and archaeological places. I also liked ceviche but I have a curiosity: Do you eat chicken every day?

What courses do you like the most? Why?

I really enjoy Early Stimulation course because I never imagined a course where theory and practice were so connected. It was the best course I've ever taken in my life! I am also very satisfied with Peruvian History and Culture course because there are lots of things to learn.

Would you like to come back to Peru?

Yes, I am pleased with all. I would even love to start my career here, at UNIFÉ, because I am satisfied with the level of training but more specially with the social commitment they inculcate. I also like the idea of developing my Spanish level. When I came to Lima, I did not speak any single word, but now people can understand what I say.

What is PAME – UDUAL?

PAME – UDUAL is the Educational Mobility Academic Program of the Union of Latin America and the Caribbean Universities. It started in 2003 with a pilot study. From 2006, it was established as a permanent program with the next aims: Promote the internationalization and integration among universities affiliated to the Union and contribute to the development of an international experience to enrich the training of undergraduate students as well as the institutional strengthening through the establishment of strategic alliances.

Which universities have been in touch with UNIFÉ during the period of 2013 – 2014?

The convocation 2013 – 2014 correspond to the semesters 2013 – 2 and 2014 – 1. This year, we have worked with the Academic Network of Mobility No. 9 which includes the following universities: Universidad de La Sabana, Chía, COLOMBIA. Universidad del Noroeste, A.C, Tampico, Tamaulipas, MÉXICO. Universidad Católica Santa María La Antigua, Panamá, PANAMÁ. Universidade Estadual do Sudoeste da Bahia, Bahia, BRAZIL.

Although participation with the rest of UDUAL's universities is not banned, it is recommended that exchange is preferably at the international level.

What are the benefits of studying abroad for an academic semester?

The benefits are enriching from any point of view. In respect of studies, the student has the possibility of training courses that are missing in her own curricular structure or being enrolled in any other course that is not considered in her Program. She also has the possibility of having contact with an academic institution different from hers, in which young university students have their own regulations, statutes and lifestyles. Students, professors and people in general with whom they have contact belong to another culture, which means a very valuable experience forwarding respect for others. The very fact that living on our own for a semester means a personal growth which will surely redefine our personalities in order to have a broad, tolerant and positive view of things.

Will I be delayed at university if I leave a term?

It is possible but all you will learn, life and academic experience is timeless. Just think about it, how much money and time it will cost to travel abroad for taking a course in an academic semester once you are graduated? **I always recommend to choose missing subjects to do not feel like I am missing the academic term.**

What is the procedure to be followed to apply for?

Review the information published on the website – UNIFÉ STUDENT AND PROFESSOR, verify if you qualify and search among the educational offerings of PAME – UDUAL.

What are the next convocations?

PAME – UDUAL has **convened** for semesters 2013 – 2 and 2014 – 1. Each university has its own programming.

For specific information visit.

LEARN ABOUT UNIVERSITIES FOR WOMEN AROUND THE WORLD

You have probably think that UNIFÉ is one of the few or the only women's university abroad. Fortunately, other important universities in the world also share the idea to emphasize the role of women in education. Here, a brief introduction.

IMAGEN

Smith College Massachusetts – United States

Smith College opened in 1875 with 14 students. Nowadays, this institution is considered as one of the biggest universities in the United States because it has more than 48.000 undergraduate students, 7.000 in postgraduate and 285 professors working on 41 academic programs.

Additionally, it allows preparation in Master and Ph.D. degrees for male students.

Here, other universities dedicated to women's training in the United States:

Mount Holyoke College <https://www.mtholyoke.edu/>

Wellesley College <http://www.wellesley.edu/>

Bryn Mawr College

<http://www.brynmawr.edu/>

Barnard College <http://barnard.edu/>

IMAGEN

Asian University for Women (AUW)

Its purpose: to educate a new generation of leaders in Asia. To this effect, this university is committed to provide a quality education to young people of South, South-East Asia and the Middle East from different cultures, religions and socioeconomic levels.

Despite being a university with about 3000 students, it can provide a personalized education. It offers undergraduate studies on:

Asian Studies

Biology

Environmental Sciences

Politics, Philosophy and Economy

Public Health

Language Center of Universidad Femenina del Sagrado Corazón (CIU, in Spanish)

Language Center of UNIFÉ has as a main objective the teaching of foreign languages to the university community through a high-quality program, with the purpose of developing and strengthening skills which allow them to obtain an optimal training for their professional development in pursuit of academic opportunities abroad, such as scholarships, conferences, congresses, international events, exchanges; furthermore, the access to technology and communication promoting the internationalization. To achieve such goals, CIU has professors

specialized in the latest methodologies; with a suitable environment of study providing courses on the same university campus; a diversity and flexibility of schedules; and an investment **without competition**. CIU starts its courses the first week of each month during all year without interruption.

CIU offers English, French, Portuguese, Italian and Mandarin Chinese language courses. It also provides a high and efficient training for the international exams of such languages, a requirement for studying abroad.
