Six UNIFÉ selected students for studying abroad!

IMAGEN

CECRI members along with UNIFÉ students who will study an academic semester abroad.

UNIFÉ affiliation to the Educational Mobility Academic Program of the Union of Latin American and the Caribbean Universities, PAME – UDUAL has allowed Alexandra Delgado Chagua, Mewsette Pozo García, Daniela Luna Loli and Mariana Saco Perales, students of Nutrition and Dietetics Academic Program, the access to partial or full scholarships in order to study in the recognized Universidade Estadual de Campinas in Brazil during the academic semester 2014 – II.

Similarly, the student of International Business Management Academic Program, Laura Chavez Rivera, fulfilled successfully the rigorous selection process to get one of 20 scholarships for studying an academic semester in Instituto Politécnico Nacional de México by being part of the Scholarships Platform of the Pacific Alliance. As well as, Doris Zelada student of the same Program will study a semester in Santo Tomás de Colombia University, thanks to the academic agreement between UNIFÉ and this important institution.

Why were you interested in coming to Unifé?

I was investigating before applying for and I realized that Unifé is one of the best options to study Psychology in Lima. The program is very complete because courses and subjects focus on both the practical part, which is not considered in many universities and the essential theory part. When coming to Peru and meeting my professors I feel like I am right because they are trained people. I think I am going to learn a lot in each course.

What are your first impressions about Unifé?

I liked this university is small in comparison with mine. It has many green areas and good infrastructure; I knew the auditorium (enormous and very beautiful) some days before starting classes when I attended the conference about Contemporary Narrative in Spanish “La creación literaria hoy”, carried out there and very interesting for me. Mrs. Gabriela Perotti and Rossana Soriano, in charge of mobility, have also been very friendly and close to me. They have shown interest in my needs so I am really grateful.
